

Final Report  
Garden City Lands Water  
and Ecological Resource Management Strategy  
Water Resource Management Plan

December 2016  
Our file 651.085-300

Submitted by

## Contents

Executive Summary .....	i
Site Assessment and Background Review .....	i
Water Resources Management Plan .....	iv
Other Design Considerations .....	viii
Ecological Management Plan .....	ix

### PART A: SITE ASSESSMENT AND BACKGROUND REVIEW

<b>1. Report Context .....</b>	<b>1-1</b>
1.1 Project Background .....	1-1
1.2 Report Organization .....	1-2
<b>2. Site Visit and Survey .....</b>	<b>2-1</b>
2.1 Survey Plan and GIS Data .....	2-1
2.2 Site Reconnaissance .....	2-1
<b>3. Hydrogeological Site Assessment .....</b>	<b>3-1</b>
3.1 Available Information .....	3-1
3.2 Previous Hydrogeology Work .....	3-2
3.3 Geotechnical Information .....	3-4
3.4 Hydrogeologic Understanding of the Garden City Lands .....	3-5
<b>4. Environmental Site Assessment .....</b>	<b>4-1</b>
4.1 What is a Raised Bog Ecosystem? .....	4-1
4.2 Previous Environmental Assessment .....	4-2
4.3 Recent Environmental Information .....	4-3
4.4 Environmental Understanding of the Garden City Lands .....	4-6
<b>5. Agricultural Site Assessment .....</b>	<b>5-1</b>
5.1 Previous Agricultural Work .....	5-1
5.2 Recent Agricultural Information .....	5-1
5.3 Agricultural Understanding of the Garden City Lands .....	5-2
<b>6. Surface Water and Drainage Site Assessment .....</b>	<b>6-1</b>
6.1 Previous Drainage Work .....	6-1
6.2 Recent Drainage Information .....	6-2
6.3 Drainage Understanding of the Garden City Lands .....	6-5
<b>7. Site Assessment Conclusions .....</b>	<b>7-2</b>
7.1 Site Groundwater Management Conclusions .....	7-2
7.2 Site Environmental Management Conclusions .....	7-3
7.3 Site Agricultural Management Conclusions .....	7-4
7.4 Site Drainage Management Conclusions .....	7-4

**PART B: WATER RESOURCES MANAGEMENT PLAN**

<b>8.</b>	<b>Water Resource Management Objectives.....</b>	<b>8-1</b>
8.1	Guiding Principles from City of Richmond and Landscape Legacy Plan.....	8-1
8.2	Proposed Land Uses .....	8-3
<b>9.</b>	<b>Proposed Water Management in the LLP .....</b>	<b>9-1</b>
9.1	Proposed Major Drainage Elements .....	9-1
9.2	Preservation of the Remnant Bog.....	9-4
9.3	Enabling Agricultural Uses .....	9-5
<b>10.</b>	<b>Water Management Options for Bog Preservation .....</b>	<b>10-1</b>
10.1	Hydrogeology Assessment .....	10-1
10.2	Subsurface and Surface Flow Barriers.....	10-3
10.3	Fen Wetland.....	10-7
10.4	Bog Water Supply Options .....	10-9
<b>11.</b>	<b>Agricultural Water Management Options .....</b>	<b>11-1</b>
11.1	Drainage Assumptions .....	11-1
11.2	Agricultural Drainage System Design Recommendations.....	11-3
11.3	Irrigation Requirement.....	11-10
11.4	Irrigation Water Sources.....	11-12
11.5	Controlled Drainage and Sub-irrigation .....	11-17
<b>12.</b>	<b>On-Site Stormwater Management.....</b>	<b>12-1</b>
12.1	Stormwater Management for Impervious Areas .....	12-1
12.2	New Storm Drainage Connections.....	12-5
12.3	Other Design Considerations.....	12-6
<b>13.</b>	<b>Draft Water Resource Management Plan.....</b>	<b>13-1</b>
13.1	Water Management Options for Bog Conservation.....	13-1
13.2	Agricultural Water Management Options .....	13-2
13.3	On-Site Stormwater Management .....	13-4
13.4	Other Design Considerations.....	13-6

**PART C: ECOLOGICAL RESOURCES MANAGEMENT PLAN**

<b>14.</b>	<b>Ecological Management.....</b>	<b>14-1</b>
14.1	Existing Conditions: Ecological Conservation Area .....	14-1
14.2	Recreation Interface Zone .....	14-5
14.3	The Remnant Bog Zone .....	14-6
14.4	The Lagg Zone .....	14-12
14.5	The Fen Wetland Zone .....	14-13
<b>15.</b>	<b>Habitat Enhancement Opportunities.....</b>	<b>15-1</b>
15.1	Agricultural Stormwater Channels .....	15-1
15.2	Structural Habitat Features .....	15-1
15.3	Protection of Habitat for Wildlife.....	15-3

**PART D: OPERATIONS AND LONG-TERM MONITORING**

<b>16.</b>	<b>Agricultural Monitoring and Maintenance Activities .....</b>	<b>16-1</b>
16.1	Drainage Ditches.....	16-1
16.2	Subsurface Drain Pipes .....	16-2
16.3	Irrigation System.....	16-4
<b>17.</b>	<b>Other Drainage Infrastructure Monitoring and Maintenance .....</b>	<b>17-1</b>
17.1	Storm System Connections .....	17-1
<b>18.</b>	<b>Groundwater Monitoring.....</b>	<b>18-1</b>
<b>19.</b>	<b>Ecological Monitoring and Maintenance Activities.....</b>	<b>19-1</b>
19.1	YEAR 0 (2016).....	19-1
19.2	YEARS 1-2 (2017-2018) .....	19-2
19.3	YEAR 3 (2019).....	19-3
19.4	YEARS 4-10 (2019 – 2025) .....	19-3
<b>20.</b>	<b>References .....</b>	<b>20-1</b>
<b>21.</b>	<b>Report Submission.....</b>	<b>21-1</b>

## Figures

Figure 1-1: Garden City Lands – Legacy Landscape Plan .....	1-3
Figure 2-1: Garden City Lands Site Survey Plan .....	2-3
Figure 6-1: Garden City Lands Ponded Water .....	6-8
Figure 6-2: Major System Flooding 2041 OCP Conditions without Improvements 10-Year, 24-Hour Free Outfall .....	6-9
Figure 6-3: Major System Flooding 2041 OCP Conditions Without Improvements 10-Year, 24-Constant 2 m Outfall.....	6-10
Figure 8-1: Garden City Lands Landscape Zones .....	8-4
Figure 9-1: Garden City Lands Proposed Land Use.....	9-3
Figure 9-2: Illustration of Garden City Lands location in the Historical Greater Lulu Island Bog.....	9-5
Figure 10-1: Location Plan of the Groundwater Monitoring Wells (SNC Lavalin, 2015) .....	10-2
Figure 10-2: Alignments of the Primary and Perimeter Hydraulic Barriers .....	10-5
Figure 10-3: Subsurface Barrier Construction Options .....	10-7
Figure 10-4: Examples of the Wetland Outlet Structures.....	10-8
Figure 10-5: Proposed Minimum Berm Crest Elevations.....	10-11
Figure 11-1: Primary Ditch Locations and Alignment.....	11-5
Figure 11-2: Agriculture Drainage Cross Section A-A' .....	11-8
Figure 11-3: Agriculture Drainage Cross Section D-D' .....	11-9
Figure 11-4: Hydraulic Grade Line at the Outlet of the GCL Site.....	11-10
Figure 11-5: Differences between Conventional Drainage, Controlled Drainage, and Sub-irrigation (from Lalonde and Hughes-Games, 1997). .....	11-18
Figure 11-6: Example of Pipe Sizing Requirements in a Sub-irrigation System .....	11-20
Figure 12-1: Example of Rain Barrel and Cistern .....	12-1
Figure 12-2: Example of reinforced clean crushed gravel and Geogrid .....	12-2
Figure 12-3: Road Drainage Servicing Plan .....	12-4
Figure 12-4: Hydraulic Grade Line Elevations for the 10-Year 24-Hour Storm.....	12-8
Figure 12-5: 10-year hydraulic grade lines at the four corners of the GCL site .....	12-9
Figure 14-1: Vegetation Polygon as Designated in the Biophysical Inventory .....	14-3
Figure 14-2: Proposed Conservation Zones .....	14-4
Figure 14-4: Concept Restoration for the Conservation Area .....	14-5
Figure 15-1: Proposed Location of the Wildlife Viewing Area .....	15-4
Figure 19-1: Treatment Schedule .....	19-4

## Appendix

### Appendix A: Preliminary Hydrogeology Results

## Tables

Table 2-1: Summary of Site Reconnaissance .....	2-1
Table 6-1: Local Rainfall Intensity Frequency Data.....	6-3
Table 6-2: 2015 Precipitation Data.....	6-3
Table 10-1: Max and Min Groundwater Levels at the GCL Monitoring Sites .....	10-1
Table 10-2: Subsurface Barrier Construction Options.....	10-6
Table 10-3: Bog Water Supply Options.....	10-9
Table 11-1: Agriculture Drainage Ditch Design Parameters .....	11-6
Table 11-2: Estimates of Crop Water Demands.....	11-11
Table 11-3: Characteristics of the Typical Year Rainfall .....	11-13
Table 11-4: Typical Year Flow Volumes in Garden City Road Storm Sewer Pipes .....	11-13
Table 11-5: On-site Irrigation Storage Options.....	11-14
Table 12-1: Outflows from Garden City Lands Reduced By Managed Storage.....	12-5
Table 12-2: Climate Change on Precipitation .....	12-6
Table 13-1: Agricultural Drainage System Design Recommendations Summary .....	13-2
Table 13-2: Water Sources Summary .....	13-4
Table 13-3: On-site Stormwater BMPs .....	13-5
Table 14-1: GCL Conservation Zones as Related to the Biophysical Inventory Vegetative Polygons.....	14-2
Table 14-2: Trees and Plants Shrubs Species to be Considered for the Recreation Interface Zone .....	14-6
Table 14-3: Plants Expected to Dominate the Site through Natural Succession .....	14-8
Table 14-4: Plants Expected to Dominate the Site through Regular Mowing.....	14-9
Table 14-5: Plants expected to dominate the site through management of invasive species	14-10
Table 14-6: Plants Expected to Dominate the Site through Removal of Invasive Species and Planting of Bog Species.....	14-11
Table 14-7: Plant/Promote Species Recommended for a Lagg Zone.....	14-12
Table 14-9: Plant Species Suitable for a Fen Wetland Ecosystem.....	14-14
Table 15-1: Plant Species Suitable for Stormwater Treatment Wetlands .....	15-1
